

BA CALVING & FEEDING EQUIPMENT

*For All Your Calf Rearing
and Mobile Feeding Needs*

BA AND TE

BA Pumps & Sprayers and Tokoroa Engineering

Since late 2024, BA Pumps & Sprayers are proud to manufacture and supply Tokoroa Engineering's trusted range of products. For years, Tokoroa Engineering has been synonymous with designing and producing durable, high-quality trailers and feeders, purpose-built for New Zealand's dairy farmers. Our renowned calf trailers, feed trailers and Milk Bar™ mobile calf feeders have become mainstream on farms nationwide, valued for their ability to perform in even the toughest conditions.

At our modern manufacturing facility in Hautapu, Cambridge, we are dedicated to continuing Tokoroa Engineering's legacy of quality and reliability.

Whether you're in need of rugged trailers, robust feeders, or essential spare parts, our combined expertise ensures that we continue to deliver practical, efficient solutions to meet the needs of New Zealand farmers. Together, we are committed to supporting your success with reliable, locally made equipment designed to keep your farm running smoothly.

Yours sincerely,
Mark, Penny, and Guy Rendle

FEED TRAILERS

- Super heavy-duty durable plastic trough with bung.
- Troughs are not bolted to the frame to minimise the chance of damage from knocks and make cleaning easier.
- Fully hot-dipped galvanized frames.
- 8 inch tractor grip 6ply tyres for load carrying.

CALF TRAILERS

- NZ Built - Tough and durable.
- Fully hot-dipped galvanized frame construction.
- Easy to clean - Hygienic mesh flooring, removable gates.

BA PRO SPREADER

- Purpose-built for reliable and consistent application of Causmag across pasture during calving.
- Also suitable for seed, bait and fertiliser application.
- Innovative hopper and aperture design ensures smooth flow and even spread.
- Durable, low-maintenance build.

CALFETERIAS

- NZ Built with UV-stabilised polyethylene tank.
- Easy to clean - Open trough design, no pipes or fiddly bits.
- Quick to fill - Large taps and 50L tank markings make filling accurate and fast. The opaque tank lets you quickly check the volume.
- Fitted with industry-leading Milk Bar™ Teats that mimic natural suckling to support digestion, reduce cross-suckling, and improve calf health.

FEED TRAILERS

4M/6M CALF FEEDER

FEATURES:

- 8 inch tractor grip 6ply tyres.
- Troughs deliberately not bolted to frame so knocks don't result in troughs being torn away.
- Super heavy-duty plastic trough with bung for easy drainage and cleaning.
- "Oily bush" steering pivot system requires no lubrication, reducing maintenance.
- Twin front wheels for improved load distribution and maneuverability.
- Hot-dipped galvanized frame for superior durability and rust resistance.
- Parking brake can be engaged when drawbar is raised vertically, out of harms way.

4M/6M PREMIUM FEEDER

FEATURES:

- 8 inch tractor grip 6ply tyres.
- Fully hot-dipped galvanized frame provides excellent durability and longevity in tough, corrosive conditions.
- Super heavy-duty plastic trough with bung for easy drainage and cleaning.
- Troughs deliberately not bolted to frame so knocks don't result in troughs being torn away, and for ease of cleaning.
- Twin front wheels distribute the load evenly, improving traction and making tight turns easier.
- The "oily bush" pivot system offers smooth, reliable steering with minimal upkeep.
- Parking brake system automatically engages when the drawbar is raised.
- Walking beam tandem rear axle for load capacity and smooth travel (6M version only).

DRAWBAR 4M FEEDER

FEATURES:

- Tare Weight: 150kg.
- Gross Weight: 625kg (Palm Kernel loaded).
- Trough Width: 800mm.
- Capacity: 675L.
- Frame height: 610mm.
- 8 inch tractor grip 6ply tyres.
- Fully hot-dipped galvanized frame.
- Troughs deliberately not bolted to frame so knocks don't result in troughs being torn away, and for ease of cleaning.
- Super heavy-duty durable plastic trough with bung.
- Suitable for younger stock.

CODE: ME-FDDB

15 CALF TRAILER

FEATURES:

- Tare Weight 150kg.
- Size: 1900 x 1500mm (2.85sq meters).
- Deck Height: 560mm.
- 1 pen/1 door.
- Ideal for smaller calf groups.
- Easy loading and unloading.
- Equipped with a mesh floor that promotes excellent hygiene and simplifies cleaning.
- Built with a fully hot-dipped galvanized frame for long-term durability and rust resistance.

20/40 CALF TRAILER

FEATURES:

- 2 pens/4 doors.
- Transports up to 20/40 calves safely.
- Easy loading and unloading.
- Removable gates provide flexibility for different transport needs.
- Hot-dipped galvanized frame with 40mm pivot shafts in grease-less plastic bushes.
- Hygienic mesh flooring minimizes infection risks and ensures easy cleaning.
- Tandem walking beam axle for load carrying and a smooth ride.

MILK BAR™ CLASSIC RANGE

FEATURES:

- A 40, 50 or 60-teat feeder with a 500L molded tank.
- Single-axle design for easy transport across the farm.
- Durable and reliable - NZ Built with UV-stabilised polyethylene tanks and manifolds and hot-dipped galvanized frames.
- Front to back levelling system.
- Easy to clean - Open trough design, no pipes or fiddly bits. Teats are pulled through, so they won't move, and the whole unit completely drains.
- Quick to fill - Large taps and 50L tank markings make filling accurate and fast. The opaque tank lets you quickly check the volume.
- Fitted with industry-leading Milk Bar™ Teats that mimic natural suckling to support digestion, reduce cross-suckling, and improve calf health.

MB50SC

MILK BAR™ DELUXE RANGE

Ideal for larger operations or where distance is travelled

FEATURES:

- 40, 50 or 60 mobile teat feeder.
- 500L or 750L tank.
- Tandem axle design for enhanced stability and smooth towing.
- Front to back and sideways levelling gives all calves their share of milk.
- Two drain taps for quick and efficient cleaning.
- Round tank eliminates milk surge, improving stability and flow.
- Drawbar handle, guard and jockey wheel.
- Durable and reliable – NZ Built with UV-stabilised polyethylene tanks and manifolds and hot-dipped galvanized frames.
- Easy to clean – Open trough design, no pipes or fiddly bits. Teats are pulled through, so they won't move, and the whole unit completely drains.
- Quick to fill – Large taps and 50L tank markings make filling accurate and fast. The opaque tank lets you quickly check the volume.
- Fitted with industry-leading Milk Bar™ Teats that mimic natural suckling to support digestion, reduce cross-suckling, and improve calf health.

Our Deluxe Tandem range feature walking beams mounted to a sprung axle for stability when driving over bumpy terrain.

MILK BAR™ MOBILE FEEDER 80/100

The ultimate in Mobile Calf Feeders

FEATURES:

- Large numbers of calves requires extra functionality and the Milk Bar™ Super Deluxe models are made for the job.
- Limitless steering axle and extra long drawbar.
- High spec 75 x 50mm box section steel chassis with suspension for an improved ride.
- Tandem axles at the rear for load carrying.
- Front to back as well as sideways levelling gives all calves their share of milk.
- Two tanks, each holding 550L with marked gradients and connected with 50mm taps and plumbing.
- Fitted with industry-leading Milk Bar™ Teats that mimic natural suckling to support digestion, reduce cross-suckling, and improve calf health.

CODE: MB80 / MB100

FEATURES & BENEFITS:

Control taps to fill manifolds from either tank.

Front to back and sideways levelling system.

Easy-to-clean open trough design.

High load carrying in tandem axle design.

Pull wires used to compress springs to achieve sideways levelling.

MILK KART & MIXER

MILK KART 550L DELUXE

- A 550L mobile Milk Kart with a 12V pump and a 10m hose & nozzle.
- Durable and reliable - NZ Built.
- 45cm diameter lid.
- Galvanised trailer.
- Drain tap for cleaning.
- 550L tank with marked gradient.
- Large carry tray.

CODE: MBMK550D (12V PUMP)
OR MBMK550C (NO PUMP)

MILK MIXER 550L 2" POLY PUMP

- 550L tank with marked gradient.
- 45cm diameter lid.
- Galvanised trailer.
- Drain tap for cleaning.
- Large carry tray.
- 2" electric start petrol pump with a 10m hose and nozzle.
- Circulating system to mix milk powder.

CODE: MBMIX550

MEAL SAVER

- Holds 150kg.
- L 1.2m x W 800mm.
- Opening height: 550mm. Total height: 730mm.
- Designed to keep meal dry and edible, ensuring minimal loss.
- Completely wind, rain, and pest proof.
- Counter balance lids that calves can easily lift with their noses.
- Fitted with skids.

CODE: MBMS

BA PRO-SPREADERS

BA PRO-SPREAD TRAILED CAUSMAG SPREADER

Specifically designed for the application of Causmag, the BAF70 and BAF140 feature an innovative hopper and aperture design that also allows for effective spreading of products like urea and grass seed. Their compact build and low spinner height ensure reliable coverage across a range of conditions.

STANDARD FEATURES:

- Galvanised frame and spinner disc for enhanced durability
- Polyethylene hopper and lid – lightweight and corrosion-resistant
- Spreader deflector shield helps prevent product build-up
- Grease-filled gearbox for smooth, low-maintenance operation
- Capacity (BAF70): 1 x 40kg bag of urea or 2 x 25kg bags of Causmag
- Capacity (BAF140): 2 x 40kg bags of urea or 4 x 25kg bags of Causmag.

BA PRO-SPREAD TRAILED FERTILISER SPREADER

BAF225 & BAF425 Fertiliser Spreaders

Compact and efficient, the BAF225 and BAF425 are purpose-built for fertiliser application. A low spinner height and dual outlet hopper ensure even distribution, while curved spinner fins deliver consistent spread patterns. Ideal for farmers and lifestyle block owners alike. Also suitable for Causmag application on larger farms.

STANDARD FEATURES:

- Galvanised frame for maximum corrosion resistance
- Stainless steel spinner disc with adjustable fins
- Polyethylene hopper and lid
- Spreader deflector shield to reduce build-up and improve accuracy
- Clutch with single-lever control for aperture opening and drive engagement.
- Grease-filled gearbox for smooth, low-maintenance performance
- Capacity (BAF225-C): 4 x 40kg bags of urea
- Capacity (BAF425-C): 8 x 40kg bags of urea
